About Us

Hawkamah is a world-class governance institute, established in 2006, affiliated with Dubai International Financial Centre, working to improve governance practices of governments and companies across the MENA region.

We help build sound organizations, reform corporate sector, assist banking and financial sector, and promote good governance. We assist companies to develop sound and globally recognized governance frameworks. Hawkamah helps also in building qualified directors and top executives who are able to apply governance in their organizations.

Our strength lies in our research and years of experience in the region, our world-class experts, and proximity to the countries and companies of the MENA region.

Hawkamah has partnerships with most of the leading governance institutions regionally and globally.

Mission

To shape the governance landscape by being staunch advocates, premier promoters and effective practitioners of good governance for the public and private sectors.

Vision

To be recognized as the advisor of choice and the reference of good governance for all enterprises in the public and private arena throughout the MENA region.

Value

Reliability, Objectivity, Professionalism, Respect & Honesty.

BENEFITS DETAILS

BOARD BRIEFING

Hawkamah briefings, arranged to coincide with board meetings and retreats, enable board members to keep up with the latest developments in governance and refresh their knowledge on governance trends and developments.

Hawkamah provides focused 1-2 hour board briefings to boards across the MENA region. The briefings are conducted by experienced board directors and center on key challenges faced by the regional boardrooms.

BOARD EVALUATION

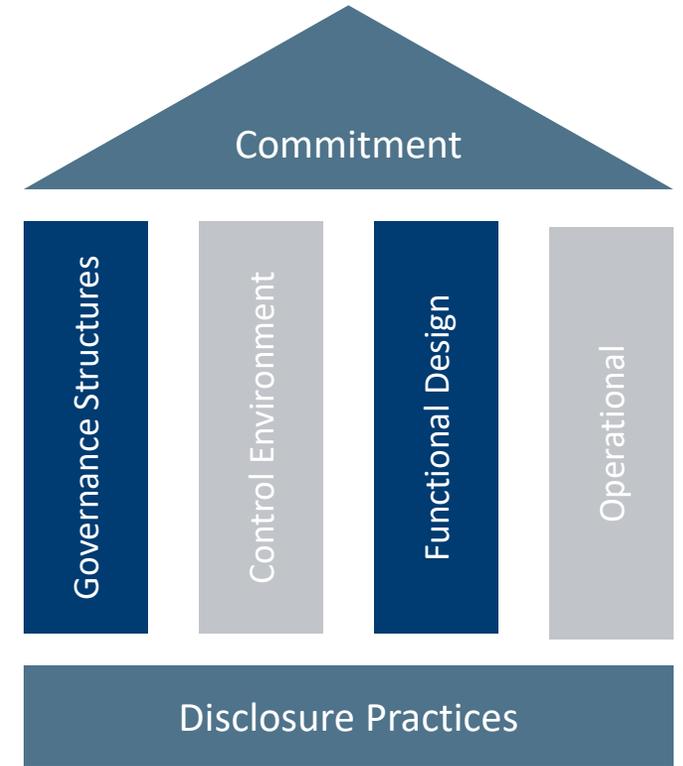

- Good Boards are essential for the success and sustainable growth of any organization regardless of its ownership structure or field of operation.
- An effective board must have the right mix of skills, but also the accomplished and inspiring experts who value teamwork and continuous improvement. Furthermore, effective boards must be dynamic and have the right processes in place.
- Board evaluation should be designed to suite the circumstances prevailing in each company and to answer to its needs.
- Hawkamah and Independent Audit Limited has join forces to improve board governance in the Middle East and North Africa. This co-operative partnership focused on increasing awareness and importance of good board governance. Under the agreement Hawkamah will be able to provide Thinking Board® – Independent Audit’s online board assessment tool -to their clients throughout the Middle East and North Africa

Corporate Governance Assessment

Hawkamah governance assessments are tailored-made according to the client needs, the size and structure of their organization, as well as their sector of activity.

The assessment enables organizations to benchmark their governance practices against local regulations, regional practices as well as international best practices. However, our approach is based on the recognition that governance is not a compliance exercise, but a platform for enhancing corporate success.

FRAMEWORK

Certified Board Secretaries Workshop

The role of the company secretary has evolved in recent years from being a mere support person to becoming one of the key governance professionals within an organization.

The fundamental course is designed to develop essential skills and knowledge required for company secretaries. It provides insights on their role and responsibilities from compliance with companies' law, the Board and an organization's governance.

Director Development Program

The DDP lays the foundation for capacity building, education of current and aspiring board members and governance professionals. It equips current and future board members with the core knowledge needed to fulfill their duties effectively.

Introduction to Corporate
Governance - Part 1

The Board - Part 2

Strategic Leadership - Part 3

Financial Stewardship,
Accountability & Leading,
Planning Improvement - Part 4

International Benchmarking Visit

Hawkamah organizes one engagement tour every year to visit one or more of the markets known for their good governance practices. Participants get the chance to meet regulators, board members, top executives, and governance experts and thought leaders of very prestigious organizations to better understand the challenges their market face and how the various initiatives can be made relevant to the region.

Past tours:

- *New York*
- *Paris*
- *London*
- *Singapore*

Refresher Courses

Refresher courses are designed to enlarge the capacity of the learning process to serve the governance practitioners and to aid in the effective fulfillment of the requirements of the participant.

Annual Conference

The Annual Conference is an occasion where leading MENA experts, high-level regional and international policy-makers, regulators, investors, private sector and civil society representatives are invited to debate on agenda topics in an open and honest dialogue, addressing the extent of governance implementation in the region and setting the next steps for governance form.

Annual conferences are designed to promote knowledge transfer, peer-to-peer learning, and the development of sound and efficient markets and help shape the changing governance land scape in our region.

Hawkamah Journal

The Hawkamah Journal addresses governance and leadership from the practitioner's perspective and the underlying theme is to link governance with performance, rather than just controls. It is directed to board directors, shareowners, executives and governance professionals. It covers the whole spectrum of governance, SMEs and family owned enterprises to listed and state owned enterprises.
